COVID-19: How We’re Responding at Warm Mineral Springs Park

As our community responds to COVID-19, the health and safety of our staff and patrons remain our top priority. Warm Mineral Springs Park will re-open with regular operating hours (9:00 a.m. – 5:00 p.m. daily) starting on June 1, 2020 with limited capacity per the current guidelines. As restrictions ease, Warm Mineral Springs Park is prepared to increase the attendees per the guidelines in effect at that time. The spa services will remain temporarily closed at this time.

Valid passes will be extended the number of days of closure. No additional days will be provided if a patron is not able to access the park due to capacity on a particular day and guests are welcome to return later that same day.

In addition, to ensure we can meet the current physical distancing and cleaning protocols, the following actions have been implemented by National and State Park Concessions, the current operator of the park:

- Sneeze guards will be placed at the customer service desk and signs installed to remind and encourage patrons to practice physical distancing.
- Seating will be reduced and spaced around the springs to encourage physical distancing.
- Chairs will be sprayed down once per day with an eco-friendly cleaning product suitable for use near water.
- Restrooms will be cleaned hourly and hand sanitizer stations are in place.
- Announcements to encourage physical distancing will be made throughout the day.

Due to the fluidity of the current situation, there may be changes to the park operator’s protocol throughout the summer. The Department will continue to follow CDC and officials’ guidelines. For the latest information on COVID-19, visit www.CityOfNorthPort.com/Alerts. For other questions, please reach out to Warm Mineral Springs Park at (941)426-1692.
